

**CARRY BY HAND FOR
FLEXIBILITY & FURTHER
DIAGNOSIS**

**VISUALIZE LEAKS IN
REAL TIME**

The MFE OGI Handheld OGI Camera allows operators to visualize harmful gas leaks and take immediate action. Take the camera right to the source to determine the size, movement, and direction of the gas leak in order to quickly get people out of harm's way and repair the leak.

SOONWELL POWER HANDLE

Use the compact, gray 70Wh Rechargeable Battery Handle from SOONWELL to power both your camera and multiple accessories. This space-saving solution provides one each USB Type-A, 5 VDC barrel, and 12 VDC barrel port, plus two D-Tap outputs for powering your Blackmagic 6K/4K camera or select other cameras.

Power Outputs

A built-in 70Wh battery provides power to two 14.8V D-Tap outputs, 8 and 12 VDC outputs, and a 5V USB Type-A port

LED Indicators

A 5-LED gauge lets you check the remaining battery power, and another LED signals an overload

Made of durable aluminum and lined with rubber for a comfortable, nonslip grip

Multiple 1/4"-20 threads for mounting additional accessories

Includes all the mounting hardware and a quick release system

HIGH POWERED HANDLE

70 Wh

4 Hr
