

MFE CALIBRATION SERVICES

FAST. COMPLIANT. FIELD-READY.

OEM calibration delays don't just slow equipment, they stall crews, delay projects, and increase costs.

MFE delivers fast, reliable NDT calibration with rapid 1-week turnaround, rental equipment to eliminate downtime, and audit-ready documentation built for strict compliance.

With dedicated calibration labs and support for the equipment your team uses every day, we help you stay productive, compliant, and ready for the field.

Stop Losing Weeks to OEM Calibration Delays

Avoid costly downtime, missed deadlines, and expensive expedited OEM fees.

When your tools sit in OEM labs for weeks, your crew sits idle—and projects fall behind.

1-week turnaround
(vs. 3–4 weeks
OEM)

Rental equipment
to eliminate
downtime

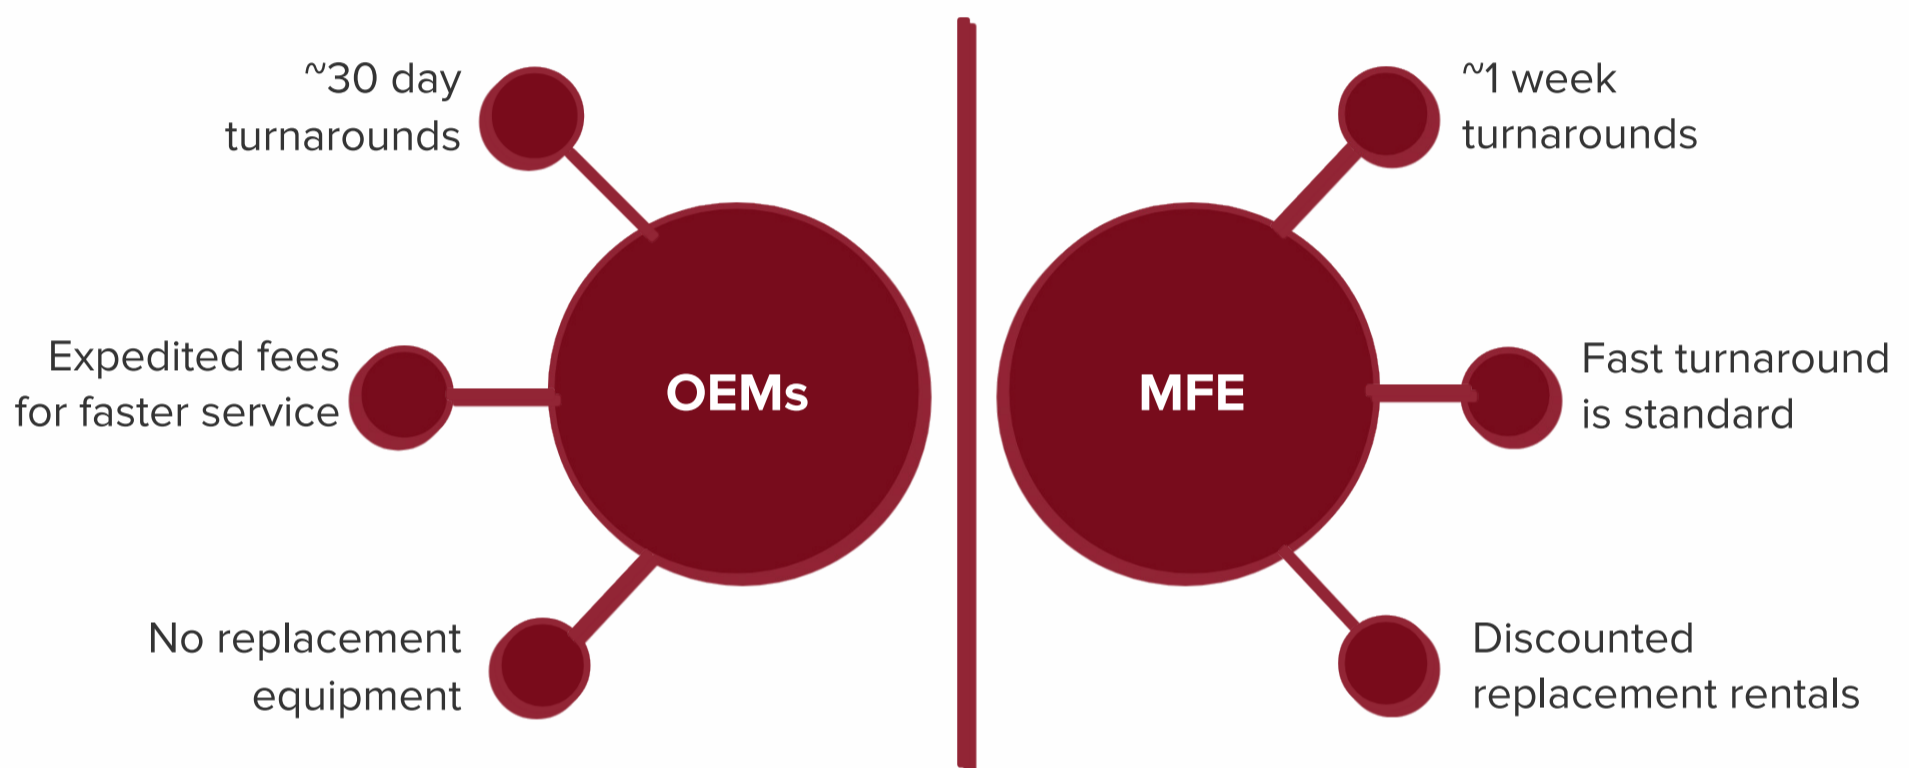

OEM-level
documentation for
audits

MFE provides a faster alternative with dedicated NDT calibration laboratories designed to reduce turnaround times while maintaining full compliance and detailed documentation standards, helping your equipment get back to the field faster.

The MFE Difference: Speed, Support & Specialized Care

Calibration delays don't just slow equipment—they stall crews, delay projects, and increase costs. MFE is built to remove those bottlenecks.

✓ THE BOTTOM LINE

Less waiting. Less downtime. More work getting done.

MFE helps you stay productive by eliminating the delays and added costs of OEM calibration.

We Calibrate the Equipment You Actually Use —Fast

From OmniScan to Eddy Current systems, we support the tools your team relies on every day with rapid turnaround.

Equipment Type	Calibration Scope
Advanced Phased Array (OmniScan)	Specialized procedures for MX1, MX2, X3, and X4 models
Electromagnetic (PEC & ACFM)	Expert calibration for Ectane 1 & 2, Lyft, Amigo, and Reddy systems
Thickness Gauges & Flaw Detectors	Rapid service for 38DL PLUS, 45MG, Echo 9, DMS Go, Cygnus 1, EPOCH XT/600/650 series, Nortec 500/600, and Elios 3 UT payload
Hardness & Coating	Precise verification for MIC 10, AlphaDur, and Equotip systems
Specialized Material Testing	Feriscopes, Deltascopes, Mag Yokes

i This list reflects common models. Additional systems may be supported upon review.

More Than a Calibration Sticker

A calibration sticker means nothing if the process behind it doesn't hold up. Inaccurate equipment, failed audits, or missing documentation can put your entire operation at risk.

MFE ensures your equipment is not just calibrated—but **proven, documented, and ready for the field.**

Reduce Compliance Risk

Audit-Ready Documentation

Complete, traceable calibration records designed to meet strict regulatory and asset integrity requirements so you're always prepared for inspections.

Ensure Accuracy You Can Trust

OEM-Level Calibration Standards

Our procedures match—and often exceed—OEM calibration checkpoints, ensuring accuracy, repeatability, and full traceability.

Perform in Real-World Conditions

Field-Ready Equipment

We don't just calibrate for compliance, we calibrate for performance. Your equipment is optimized for the demanding environments your technicians face every day.

✓ THE BOTTOM LINE

Pass audits. Trust your data. Avoid costly rework.

MFE delivers calibration you can rely on—both on paper and in the field.

Local Support. Faster Turnaround. North American Coverage.

Easier drop-off

Fast shipping

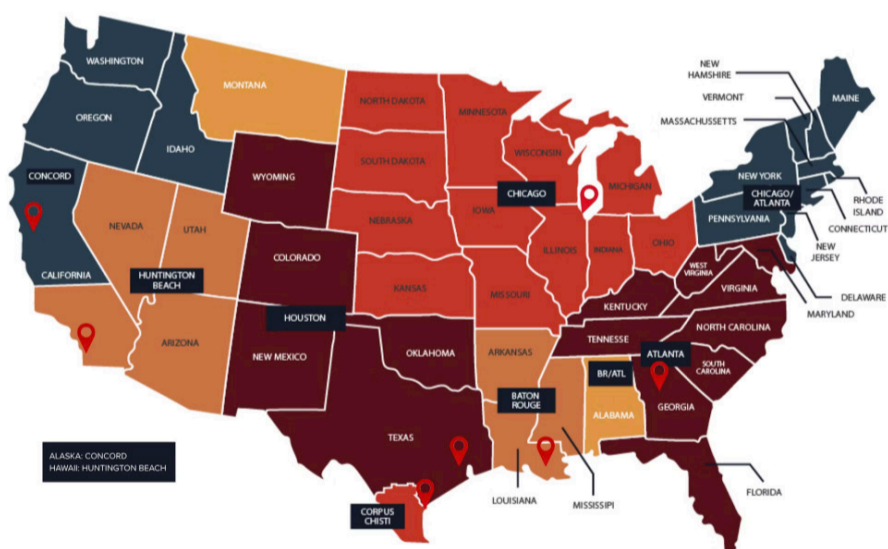

Regional rentals

Primary Calibration Centers

Houston, TX

High-volume calibration support for advanced NDT equipment and inspection systems.

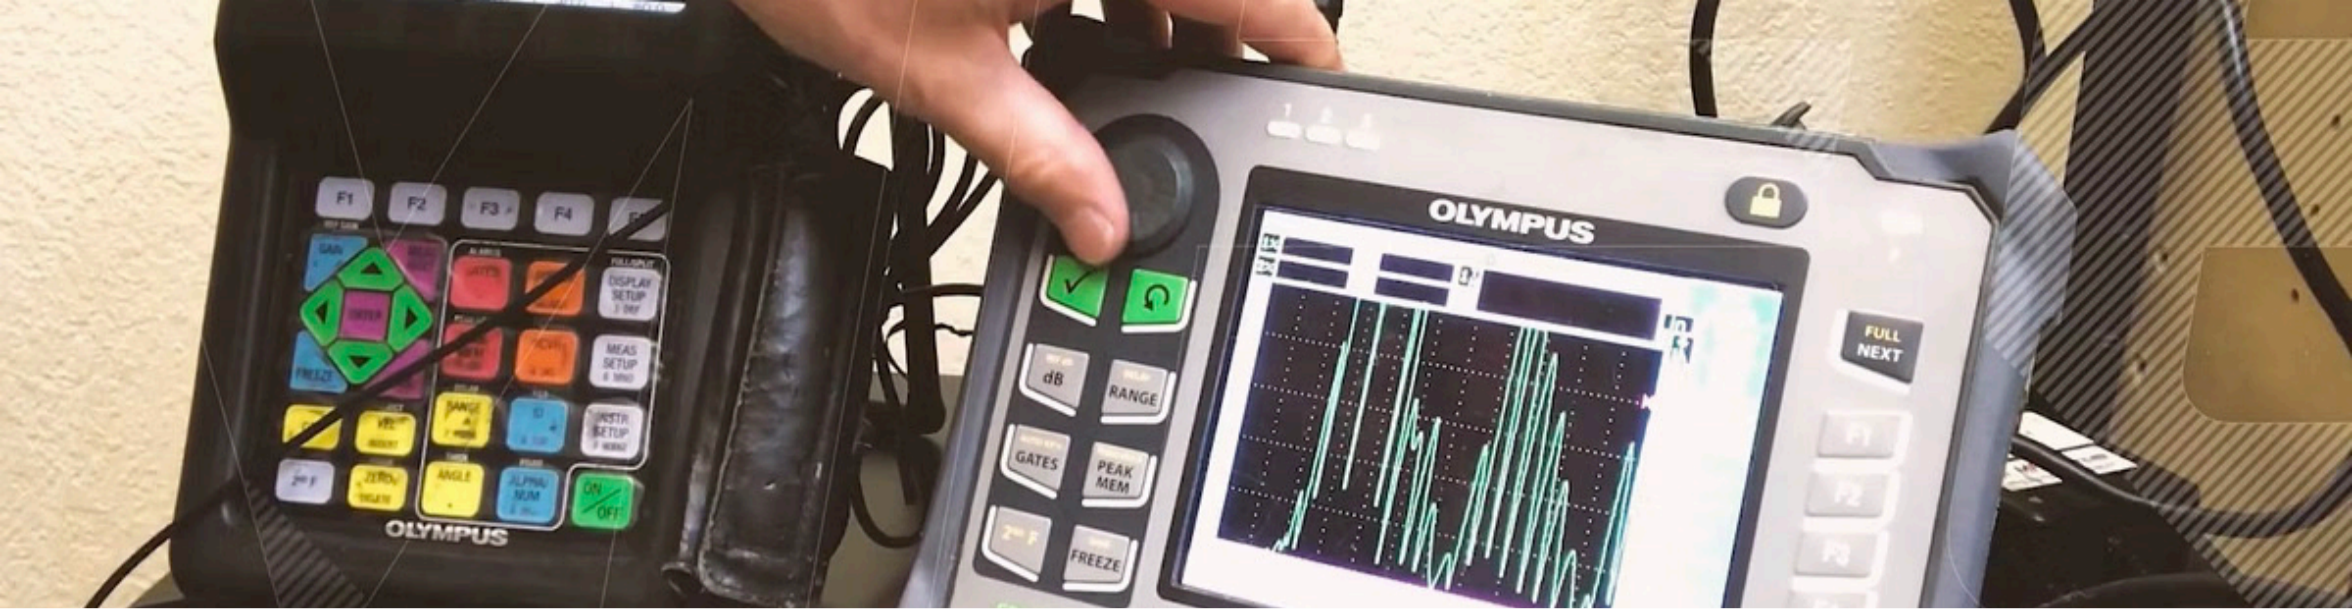

Concord, CA

Dedicated calibration laboratory supporting rapid turnaround for critical inspection equipment.

Additional North American Offices

Atlanta, GA | Baton Rouge, LA | Chicago, IL | Corpus Christi, TX

Huntington Beach, CA | Edmonton, AB | Toronto, ON

Get Your Equipment Back in the Field Faster

Don't let calibration delays slow down your crew or push your project behind schedule. MFE makes it easy to get fast, compliant calibration without the long OEM wait times.

- ✓ Fast turnaround—often within one week
- ✓ 24–48 hour expedited options available
- ✓ Rental equipment to keep your team working
- ✓ Audit-ready documentation included
