ELIOS 3

Insights beyond human reach

As a collision-tolerant inspection drone, the Elios 3 combines advanced pilot assistance and versatile payload options to ensure safe, efficient, and accurate data collection in challenging environments.

FLYABILITY | MFE INSPECTION SOLUTIONS

Built for challenging indoor inspections. Engineered for versatility.

More than a confined space drone, the Elios 3 helps inspection teams safely access challenging environments, simplify complex operations, capture valuable inspection data, and turn findings into actionable insights.

Unprecedented access

Stress-free operations

Unmatched versatility

Actionable insights
